

Check out the Verso-tile range from Klarius!

16 November 2022

The Klarius Products range now features 45 new parts, including a catalytic converter (CAT) for the Toyota Verso-S. With more than 11,000 references already offered with next morning UK delivery, Klarius has everything required to ensure the availability of quality emission control components.

[Click here for the latest parts list.](#)

Klarius' most recent products include complete exhaust systems for the Renault Kangoo 1.5 from 2008 onwards, the VW Tiguan 1.4 TSI from 2010 to 2015, and the Peugeot Boxer, Citroën Jumper, and Citroën Relay 2.0 from 2015 onwards.

Klarius has also added CATs for the 2000 Ford Focus 1.6, Ford Fiesta, the Vauxhall Astra 1.6 from 2009 onwards. Complete diesel particulate filters (DPFs) are available for the Seat Ibiza and VW Polo 1.6 TDI 2009 (LHD), as well as the Porsche Cayenne and VW Touareg 3.2 from 2002 to 2006.

With over 250 parts added to the stocklist this year, these are just the most recent releases. Klarius continues to add more each month - all backed by a Fit First Time guarantee and a 2-year standard warranty. As a secure exhaust fit is critical, every Klarius exhaust also comes with bespoke mountings.

Klarius' in-house logistics department, AutoLogistiks, can supply parts to all stockists and distributors across the UK the next working day.

Total availability has been achieved due to dynamic stocking, demand-driven manufacturing, and Klarius' large warehouse capacity. Lead times are the same whether customers require a replacement exhaust for the family car or a CAT for a sporty little drop top.

To guarantee that all products match or outperform original equipment manufacturer (OEM) parts, all applicable Klarius items have also been type-approved by the Vehicle Certification Agency (VCA) and TÜV.
