

## **JWC bringing innovative solutions to**

## **WEFTEC 2022**

**7 October 2022**

**This year at WEFTEC, visitors will be able to see first-hand how JWC Environmental, a Sulzer brand, tackles some of the biggest challenges in wastewater, helping operators to save time and money. Presenting a range of grinders and other headworks solutions, JWC will be available on Booth 3451 in Halls A-J from October 10-12 at The Ernest N. Morial Convention Center in New Orleans.**

WEFTEC brings together leading experts as well as proven technology and solutions wastewater industry. JWC is at the forefront of solids reduction and removal equipment, which is designed and manufactured to deliver efficiency and reliability.

With almost 50 years' experience in tackling the challenges of the wastewater industry, JWC continues to provide innovative solutions that tackle the problems facing the water sector. The Muffin Monster range of grinders has become the first choice to protect sewage pumping stations and sludge system equipment, while the company's solids removal solutions offer efficiency and reliability.

In Booth 3451, visitors will have the opportunity to see a portfolio of products, including Muffin Monster grinders, the Monster Fine Screen and a Monster Drum Thickener. The live demonstration grinder will highlight the effectiveness of the Muffin Monster. On-stand experts can explain the competitive advantage of the

Monster Stack, a custom set of grinder cutters that are perfectly matched to a specific application and environment.

JWC designs all of its products to tackle real problems and provide real solutions. Delivering equipment that offers long and reliable service in abrasive and corrosive environments is essential for wastewater applications. Everyone at JWC shares the common goal of making life easier for water professionals; delivering high-quality products that maximize flow and protect downstream equipment, while at the same time reducing maintenance costs and promoting uptime.

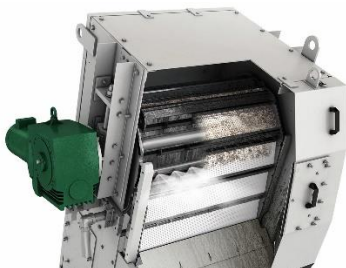

Opposite the JWC stand, visitors will also see the Sulzer booth, which will be highlighting the latest developments in pump technology as well as turboblowers, filtration and tertiary treatment systems on Booth 3439.

***WEFTEC 2022 exhibition tak place from October 10-12 at The Ernest N. Morial Convention Center in New Orleans, Louisiana, USA. Visitors can meet with JWC on Booth 3451 in Halls A-J.***

## About JWC Environmental, a Sulzer Brand

JWC Environmental (JWC), a Sulzer Brand, is a world leader in solids reduction, removal systems and product destruction for municipal and industrial applications. JWC Muffin Monster sewage grinders are the first choice to protect vital sewage pumping stations and sludge system equipment, and JWC headworks screens are proven performers to protect essential treatment plant equipment from debris in wastewater. JWC systems such as Auger Monsters and Monster Wash Presses provide unique all-in-one packaged solutions for solids separation and dewatering. Founded in 1973, the company has built and shipped more than 40,000 Monster grinders, shredders, and screens to customers worldwide. JWC is headquartered in Santa Ana, Calif., and has a global network of representatives, distributors, and regional service centers to meet local customer needs.
