

Audi-dooddy! Check out the new product releases from Klarius!

01 September 2022

With over 24 million vehicles catered for, 17 new parts now available and next morning UK delivery – the Klarius range has everything needed for a quick and quality exhaust repair. Even if that's a new diesel particulate filter (DPF) for the Audi A3.

[Click here for the latest parts list.](#)

The new range includes: a complete exhaust system for the BMW 520 2.2 from 2003 onwards, as well as Citroën Berlingo and Peugeot Partner 1.5 2018 models, the 2012 forwards Honda Civic 1.8, the 2010-2014 Kia Sportage 1.6, the 2003-2009 Mercedes E-Class 2003-2009, and many more. Furthermore, new diesel particulate filters (DPFs) are ready to fit the 2014 – 2015 VW Passat 2.0 and Ford Focus 1.6Tdc models for 2012 onwards. New catalytic converters (CATs) for the Vauxhall Viva 1.0 for 2015 onwards complete the parts release.

Klarius believes that a secure exhaust fit is important, which is why bespoke mounting kits are available for every exhaust in range. The range is growing too, with Klarius releasing over 200 new aftermarket parts in the past 12 months, adding to more than 11,000 references already available.

With applicable products type-approved by the Vehicle Certification Agency (VCA) and TÜV to verify that parts match or exceed the performance of the original

equipment manufacturer (OEM) item, Klarius quality is also backed-up by a Fit First Time guarantee and 2-year standard warranty.

Thanks to dynamic stocking, demand driven manufacturing and large warehouse capacity, there is total availability across the range. Whether customers need an exhaust for a treasured classic car or a DPF for a modern commuting diesel, the lead time will be the same.

AutoLogistiks, Klarius' in-house logistics operation, provides reliable next day delivery to all stockists and distributors across the UK.
