

Klarius exhausts are Berlingo-ing places!

26 October 2022

The Klarius Products range offers everything needed for a quick and quality exhaust repair, including support for the Citroën Berlingo 1.5. In the past month, Klarius has added 12 new parts to its range to join over 11,000 references already available for next morning UK delivery.

The expanded offering includes complete exhaust systems for the 2014-2019 Mitsubishi L200 2.4, Ford C-Max MKII (2015 onwards), Toyota Rav4 2.0 D4D manufactured from 2012, Fiat 500X models from 2014, Renault Trafic and Vauxhall Vivaro 1.6 2014 onwards, along with many more.

In addition to these exhausts, a ready to fit diesel particulate filter (DPF) for the Nissan NV200 1.5DCI from 2010 onwards completes the list.

These are only the latest items added to the ever-growing number of Klarius solutions, making it over 200 parts so far this year! All components can be delivered to stockists and distributors across the UK the next working day via AutoLogistiks, Klarius' in-house logistics operation.

Don't forget that every exhaust from Klarius is available with mountings, as a secure exhaust fit is crucial.

Total availability is achieved through dynamic stocking, demand-driven manufacturing, and massive warehousing capacity. Lead times are the same whether customers need an exhaust for a vehicle used as a fair-weather ride or a DPF for the daily run-around. This results in widespread support for over 24 million vehicles on UK roads.

Klarius quality is backed-up by a Fit First Time guarantee and 2-year standard warranty. All applicable Klarius products are also type-approved by the Vehicle Certification Agency (VCA) and TÜV which ensures that parts match or exceed the performance of the original equipment manufacturer (OEM) equivalent.
