

Klarius enhances rapid exhaust delivery across

Ireland

Klarius Products is now offering 24-hour delivery for its exhausts in Northern Ireland and will be expanding availability across the Republic of Ireland (ROI) in Q2 of 2023. Irish distributors and stockists can now access one of the most extensive ranges of aftermarket emissions control components in Europe from a new warehouse facility in Kilroot Business Park, Carrickfergus.

James Ellison, Sales Director at Klarius commented: “We’re excited to launch our market-leading next day exhaust delivery service in Northern Ireland, while also working towards an enhanced offering in the ROI. With our dedicated logistics framework, we can provide high quality parts to support even the most urgent repair, with popular references now available locally to help get people back on the road as fast as possible.”

The 3,000 sq. ft. (278 m²) logistics depot in Carrickfergus offers rapid access to nearly 4,000 products. This includes over 1,900 type-approved exhausts, more than 1,700 fixtures and fittings as well as over 100 catalytic converters. Dynamic stocking will ensure demand driven profiling across the inventory, enabling responsive support for the most popular vehicles. This selection covers over 95% of the main applications serviced by garages in Northern Ireland and the ROI.

For the remaining 5% of vehicle repairs, Klarius can help too. Beyond what is held locally, Klarius also offers a direct shipping service to the logistics depot in Northern Ireland from its factory in Cheadle, Staffordshire, providing access to its entire range. Consequently, customers in Ireland can easily obtain over 11,000 product references for cars and vans of almost any make, model or age.

Customers can expect replacement exhausts of the utmost quality. A 2-year warranty and a Fit First Time guarantee is standard across the entire range. All applicable products are type-approved to EU legislative standards by the VCA and the TÜV. In-house testing ensures that parts meet or exceed the performance of the OEM equivalent.

On-site collection is also available. Next day delivery in Northern Ireland is possible for orders made before 17:00. To place an order, please call +44 (0)1538 752 561 or email cs.team@klarius.eu.
