

## **Klarius delivers for LCVs: Quality exhausts for the award-winning Mercedes Sprinter**

**24 April 2023**

*With the latest update to its product catalogue, Klarius Products has released new parts for the stalwart of British roads, the Mercedes-Benz Sprinter. This includes a full exhaust system for the (2010-2015) Mercedes Sprinter 906. But what makes this van so popular?*

[Click here to view the latest parts list.](#)

The Mercedes-Benz 906 Sprinter is the second generation of the series, a light commercial vehicle (LCV) released in 2006. The same year saw many LCVs undergo a facelift, including the Ford Transit, Fiat Ducato, Peugeot Boxer, and Citroen Relay, all of which debuted in their third generations.

Despite this competition, it was the 906 Sprinter that stood out, with the vehicle named Van of the Year by Professional Van and Light Truck Magazine shortly after release. This comes as no surprise, given its design balance between luxury and convenience, coupled with the versatility to transport either cargo or passengers. A Mercedes Sprinter can always be relied upon to get the job done.

And when it comes to keeping this vehicle running smoothly, Klarius has got you covered with its high-quality aftermarket exhaust system. The company's product catalogue of over 11,000 applications is designed to meet or exceed original equipment manufacturer (OEM) standards. Parts are also type approved by the

Vehicle Certification Agency (VCA) in the UK and TÜV in Germany where applicable.

Klarius offers a Fit First Time guarantee for all its products, along with a minimum 2-year standard warranty. At the same time, dynamic stocking, demand-driven manufacturing, and expansive UK warehouse capacity, allows the business to maintain a high level of availability with minimal lead times.

Whether you need a full exhaust system, a replacement catalytic converter, or some bespoke mountings, parts ordered by 5.30 PM are eligible for next-day delivery to stockists and distributors in the UK.
