

Lindhurst Engineering Acquisition: A New Chapter of Success for ECS Engineering Services

11 July 2023

Thanks to the recent acquisition of Lindhurst Engineering by ECS Engineering Services, both companies are making great strides towards a unified future, bolstered by an expanded expert workforce and extended capabilities. This allows customers to benefit from a larger pool of industry experts and a wider range of services.

Mark Watkins, Managing Director at ECS Engineering Services, shares his enthusiasm: "Partnering with Lindhurst Engineering propels us to deliver richer, more inventive engineering solutions together, that cater directly to our customers' evolving needs.

What does this bold step mean for the future?

Dynamic Expertise - The merger of two talented companies provides an extraordinary wealth of engineering ingenuity, prepared to tackle any challenge head-on.

Powerful Capability - By combining ECS' and Lindhurst's resources, ECS is poised to undertake larger, more complex projects, without compromising their continual commitment to punctual delivery.

Complete Solutions - With a broader set of services, ECS emerges as a comprehensive hub for engineering solutions that inspire confidence.

ECS and Lindhurst are committed to ensuring minimal disruption during the integration, securing the continuity of the high-quality service associated with both companies.

Mark Watkins underscores the optimism of this strategic move, "Integrating Lindhurst's skilled team with our own experts broadens our horizons and amplifies our potential. We're excited to embark on this new chapter, providing superior service to our customers as a unified entity, while also building a strong future for Lindhurst and ECS employees."

Existing Lindhurst clients can continue to expect the hallmark service and innovation they have always enjoyed. The added advantage is their newfound access to the more extensive resources and capabilities of ECS Engineering Services.

Mark concludes, "This merger bolsters our commitment to staying at the forefront of the engineering services industry. Together, our team is on a mission to surpass expectations, enrich our service offerings, and drive the success of our clients' projects."

For any questions or for more information, customers are invited to connect with our dedicated ECS team. We're ready to answer any queries anyone may have regarding this transition. Please visit <http://www.ecsengineeringservices.com>.

About ECS Engineering Services

ECS Engineering Services has over 30 years experience in delivering high quality, reliable and cost effective engineering solutions, specialising in bespoke design and construction of water, energy and environmental processing and management projects.

In conjunction with key supply partners, ECS has the expertise and capacity to design and install a wide range of water control engineering projects. With in-house fabrication services, which have CE Marking approval to EXC4, well equipped and highly skilled engineers can also complete structural steelwork, bespoke fabrication work and access metalwork to the highest standard.

With a complete range of site services available, ECS offers a full turnkey project managed service for mechanical and electrical installations including managing civils contractors and supplying pipework, control and automation work to ensure that every installation is installed and commissioned to the highest standard. Existing clients include the majority of the UK Water Utility companies, Government Agencies and Internal Drainage Boards.
