

The tale of two compact giants - Ford Focus vs Peugeot 308

13 July 2023

Klarius Products has announced the latest additions to its expansive range of emission control solutions, including complete exhaust systems designed specifically for the Ford Focus (2018) and Peugeot 308 (2013). The new products for these icons of American and French automotive excellence add to a catalogue of over 11,000 applications, showcasing Klarius' commitment to supporting garages and the needs of motorists.

[See the full parts list here.](#)

The Ford Focus is an embodiment of American innovation and practicality. Melding dependable performance with intuitive technologies and roomy interiors, the Focus was meticulously crafted for the modern family. Similarly, the Peugeot 308 - a testament to French elegance and technology - has been wowing audiences with its stylish aesthetics and immersive driving experience since 2007.

Helping to maintain the performance of these automotive titans, Klarius offers complete exhaust systems to provide longer-lasting repairs across all models. This commitment to quality is not just limited to the Focus or the 308 but is echoed through its entire product line.

Klarius designs its replacement parts to meet or exceed original equipment manufacturer (OEM) standards and offers a 'Fit First Time' guarantee, aiming to

minimise time on the ramp. Furthermore, all applicable parts are type approved by the Vehicle Certification Agency (VCA) in the UK and the TÜV in Germany. A minimum two-year standard warranty across the product range helps to ensure customer satisfaction and peace of mind. With quality secured, Klarius also recognises the urgent nature of car repairs and has made availability a priority. Stockists and distributors in the UK receive orders placed by 5:30 PM the next day.

While the Ford Focus and the Peugeot 308 cater to similar markets, their distinctive features attract different types of drivers. However, most importantly for garages whether it's a Ford Focus or Peugeot 308, when you have one of these cars on the ramp, you can rest assured that when you specify Klarius you will receive the right part, on time.
