

Klarius is at the vanguard with exhausts for Citroën

Dispatch

28 September 2023

Klarius Products has launched 10x new aftermarket exhaust components this month, including a full replacement exhaust system for the '07-2016 Citroën Dispatch.

[See the full part list here](#)

Earning its place on Europe's bustling streets and ever-demanding private users and business fleets the Citroën Dispatch has carved a name for itself with a blend of efficiency and practicality. The Mk II Introduced in 2007 is a true light-commercial (LCV) offering variations in length, height, and utility configurations.

Fast facts:

- **Double Identity:** While known as the Dispatch in many markets, it sports the catchy moniker "Jumpy" in others. This dual branding underscores its international appeal and adaptability across different regions.
- **Van Life:** The modular design of the Dispatch made it a popular choice for camper van enthusiasts. Many adventurous souls choose to convert Dispatch vans into mini motorhomes for weekend getaways or even cross-country journeys.
- **Eco Champion:** Some models of the Dispatch were notably fuel-efficient for their time, making them an eco-friendly choice among vans. This efficiency led to many businesses choosing it to reduce their carbon footprint.

The innovative emissions control solutions developed and perfected in-house by Klarius fit the popular Citroën Dispatch 2.0 litre from 2007 onwards, which due to platform and component sharing across the PSA Group, the CATs and DPFs also fit the Peugeot Expert from the same era.

Recognised as the UK's largest manufacturer of aftermarket exhausts, Klarius supports over 11,000 diverse applications. Availability remains impressive due to popular stock held locally at local motor factors for same day dispatch to garages, and next day UK delivery from the factory for stockists and distributors on orders placed by 5:30 PM. Additionally, all relevant components are independently type-approved by the Vehicle Certification Agency (VCA) in the UK and the TÜV in Germany, affirming quality and compatibility.
