

## **Celebrating a decade of dedication: Haydn's 10-year journey at Spelsberg**

**10 October 2023**

**In the dynamic world of electrical installation and enclosure technology, Spelsberg has consistently demonstrated a commitment to quality and innovation. This commitment is mirrored by its dedicated team members, one of whom, Haydn Jones, is celebrating the significant milestone of 10 years with the company.**

Haydn's journey with Spelsberg began through a blend of familial ties and serendipity. Initially joining the team in a temporary capacity, working side by side with his uncle when he was younger, he seamlessly transitioned into a permanent role, ultimately adopting the full-time position of Warehouse Operative. His daily responsibilities encompass a range of crucial tasks, including goods dispatching, stock checking and overall warehouse management, ensuring the smooth operation of this pivotal department.

Over the past decade, Haydn has witnessed the ebb and flow of team dynamics within Spelsberg, observing colleagues embark on new journeys while welcoming fresh faces to the team. Despite these changes, Haydn has remained a constant, steadfastly ensuring the smooth operation of the warehouse and contributing to the company's ongoing success.

Haydn's ability to independently manage his tasks and responsibilities not only showcases his reliability but also underscores his commitment to ensuring that the warehouse operates without a hitch.

An advocate for both physical and mental health, Haydn is a certified Mental Health First Aider, Fire Marshall, and holds a general First Aid certification, reflecting a holistic approach to wellbeing in both his colleagues and himself.

Away from the warehouse, Haydn is a keen mountain biker, exploring trails and indulging in the adrenaline rush of downhill biking, providing a physical outlet that complements his mental health advocacy. His interest in stoicism and psychology reflects a balanced approach to life and work, understanding the importance of maintaining mental and physical equilibrium.

Haydn lives by the words of Vince Lombardi: "Life's battles don't always go to the stronger or faster man. But sooner or later the man who wins is the man who thinks he can." This philosophy not only speaks to his tenacity but also reflects his belief in the power of self-confidence and perseverance, qualities that have undoubtedly steered his decade-long journey at Spelsberg.

Haydn's 10-year tenure is not merely a milestone but a testament to his quiet dedication and unwavering work ethic. His journey underscores the invaluable role of individuals like him, who, through their consistent and reliable contributions, become the silent yet indispensable pillars of an organisation.

Chris Lloyd, Managing Director at Spelsberg, reflects, "Haydn's decade with us is not just a reflection of his dedication but also his consistent and reliable contribution to our operations. We are immensely grateful for his ongoing commitment and look forward to many more years working together."
