

Jazzing up emissions control: Klarius latest parts release supports the Honda Jazz and more...

31 October 2023

Klarius Products has announced the release of 26 new aftermarket emissions components, including catalytic converter (CAT) support for the iconic Honda Jazz CVT Sport and Jazz Ex made between 2009-2015.

The Honda Jazz has earned its stripes on roads worldwide, offering a unique blend of efficiency, versatility and reliability. Since its introduction in 2001, the Jazz has catered to a diverse demographic of drivers, covering city commutes and countryside travelling alike, thanks to its versatile “Magic Seat” system and fuel-efficient engine options.

Fast facts:

- **Magic Seats:** The Jazz’s innovative “Magic Seat” system allows for multiple cargo and seating configurations, making it a hit among those who crave versatility.
- **Eco-friendly:** With hybrid models and excellent fuel efficiency, the Jazz remains a popular choice among eco-conscious drivers.
- **Dual Identity:** Known as the Honda Fit in some markets, the Jazz’s dual branding highlights its international appeal.

The emissions components developed by Klarius are particularly tailored to meet or exceed those of the original equipment manufacturer (OEM). The business takes an extra step towards supreme quality by type-approving applicable products with the Vehicle Certification Agency (VCA) in the UK and TÜV in Germany.

As the UK's largest manufacturer of aftermarket exhausts, Klarius supports over 11,000 diverse applications. Thanks to its extensive warehouse facilities and dynamic inventory system, parts are readily available. Orders placed by 5:30 PM are eligible for next-day UK delivery to distributors, ensuring that customer vehicles stay on the road, performing at their best.
