

Portescap Attains AS9100 Certification, Demonstrating Commitment to Aerospace Manufacturing Excellence

15 November 2023

Portescap, a global provider of miniature motion solutions, is excited to announce that its facility in Mumbai, India has attained AS9100 certification. Internationally recognized as the defining standard for Quality Management Systems (QMS) in the aerospace industry, AS9100 outlines a set of rigorous requirements that aerospace suppliers must meet to ensure the quality and safety of their products and services.

Miniature motors and motor accessories are critical to the success of a wide range of aerospace applications, including automated window shades, seat actuation, and cockpit flight controls. By manufacturing motion solutions utilizing the controlled processes and procedures that comply with AS9100 QMS, Portescap is able to deliver products of the highest quality and that adhere to the latest industry standards.

“Portescap places significant emphasis on quality, reliability, and safety, as well as a strong commitment to exceeding customer needs,” said Julian Del Campo, Business Development Manager for Aerospace and Defense. “Our AS9100 certification is not only a requirement of our role as a supplier to our customers but highlights our commitment to delivering quality motion solutions for aerospace applications. This certification also increases our customers’ confidence that we will continue to meet the rigorous QMS standards specific to the aerospace sector.”

For more information on Portescap's AS9100 certification and broader motion solutions for the aerospace industry, reach out to portescap.sales.america@regalrexnord.com.
