

Portescap's Micro Motors Take Center Stage at Eurosatory 2024

21 May 2024

Portescap, a global leader in micro motion solutions, is pleased to announce its participation in Eurosatory 2024, held from June 17th to June 21st, 2024, in Paris, France. We will be showcasing our wide range of micro motor technologies and design expertise at Booth DE-309 during the event.

With over 40 years of experience in the aerospace industry, Portescap has earned a reputation as a trusted provider of motion solutions across various applications. We will highlight our expertise in the following key areas:

1. **Broad Portfolio.** Explore our wide selection of Commercial Off-The-Shelf (COTS) products, which are fully customizable to meet a spectrum of application demands.
2. **Precision Motion Solutions.** Employing a collaborative design approach, we work closely with customers to enhance application performance, particularly in critical systems like flight control surfaces/systems, fuel management systems, and valve actuation.
3. **SWAP-Optimized Designs.** Our solutions deliver precise power in compact packages, perfect for scenarios where space and weight are paramount considerations.
4. **Global Footprint.** With R&D locations in the United States, Switzerland, and India, we're strategically positioned to serve customers worldwide.
5. **AS9100 Certification.** Our commitment to quality is demonstrated through our AS9100 certification, ensuring that our products meet stringent industry requirements.

6. **RTCA DO-160G Design Capabilities.** We've recently expanded our design capabilities and are now able to fully customize our motion solutions to meet DO-160G standards.

"Portescap's micro motors have been integral to a wide range of demanding applications, providing compact, lightweight solutions that do not compromise on performance," said Julian Del Campo, Senior Industry Manager at Portescap. "We're excited to demonstrate our latest advancements at Eurosatory 2024 and showcase how our product portfolio continues to meet the evolving needs of the industry."

About Portescap

Portescap offers the broadest miniature and specialty motor products in the industry, encompassing coreless brush DC, brushless DC, stepper can stack, gearheads, digital linear actuators, and disc magnet technologies. Portescap products have been serving diverse motion control needs in wide spectrum of medical and industrial applications, lifescience, instrumentation, automation, aerospace and commercial applications, for more than 70 years.
