

Klarius leads the way with new parts for the Kia

Picanto

23 May 2024

Klarius Products is proud to announce the latest expansion of its aftermarket emissions component range, this time adding 33 new parts, including several specifically designed for the Kia Picanto. This release positions Klarius as the first in the market to offer parts for one of Kia's most popular compact models.

The Kia Picanto, introduced in its third generation starting from 2017, has quickly become a favourite for urban and city drivers due to its stylish design, efficient use of space, and reliable performance. The model features enhanced specifications that improve both environmental efficiency and driving pleasure, making it a standout choice for modern commuters.

As a leader in the automotive parts industry, Klarius is committed to supporting the latest vehicle models with top-tier products, ensuring that owners of the Kia Picanto can enjoy a seamless driving experience with parts that match or exceed original equipment standards.

Fast Facts About the Kia Picanto:

- **Tax-Friendly Sizing:** The Picanto owes its small dimensions to South Korean tax incentives for 'light cars' less than 3.6m long and 1.6m wide. It meets both requirements with just 5cm to spare!
- **A Spicy Name:** The Picanto gets its name from the Spanish word 'picante', meaning 'spicy'. This is quite a contrast to the car's name in its native South Korea, where it is known as the Kia Morning.
- **Tiger Nose:** The Picanto is equipped with Kia's the distinctive 'Tiger Nose' grille. Chief Design Officer, Peter Schreyer, said the "powerful" face of a tiger inspired him to create the striking mesh grille, which has featured on all of the company's cars since 2007.

Thanks to Klarius's reputation for quality and service, Kia Picanto across the country can be confident that their vehicle is equipped with the finest aftermarket emissions parts available. With over 11,000 parts in our catalogue and next-day delivery for orders placed before 5:30 PM, Klarius continues to be the go-to source for all your vehicle part needs, ensuring your Kia stays running smoothly and efficiently.
