

Portescap Showcases Advanced Micro Motion Solutions at Automation Expo 2024

30 July 2024

Portescap, a global provider of motion solutions, announces its participation in Automation Expo 2024, taking place at the Bombay Exhibition Center in Mumbai, India, from August 21-24, 2024. This prominent event gathers Southeast Asia's automation professionals for an in-depth look at cutting-edge technologies and the latest industry innovations.

Portescap will exhibit at Hall 1, Booth K-28, presenting advanced micro motion solutions that maximize performance and efficiency to meet the rigorous demands of automation and robotics applications. Highlighted products and capabilities include:

- **Frameless Motors:** Portescap possesses the capabilities to design and manufacture frameless motors with outer diameters ranging from 10mm to 130mm.
- **Flat BLDC Motors:** The ECF product line offers flat brushless DC motors, with diameters from 20mm to 90mm, available as catalog items or custom designs.
- **Extensive Range of Micro Motion Solutions:** Diverse motor technology options will be on display, from brushless DC and brush DC motors to gearheads, encoders, and controllers. These range from off-the-shelf to mix-and-match and custom solutions.

Portescap's robust product portfolio, custom capabilities, and focus on collaboration result in unmatched solutions for every application. Emphasizing a holistic systems approach, Portescap oversees all the necessary components to provide integrated solutions and is dedicated to maximizing overall system performance, thereby enhancing reliability and efficiency with superior power density.

To schedule a meeting with Portescap's team at Automation Expo 2024, or for general inquiries about our product portfolio, please email

About Portescap

Portescap offers the broadest miniature and specialty motor products in the industry, encompassing coreless brush DC, brushless DC, stepper can stack, gearheads, digital linear actuators, and disc magnet technologies. Portescap products have been serving diverse motion control needs in wide spectrum of medical and industrial applications, lifescience, instrumentation, automation, aerospace and commercial applications, for more than 70 years.

Portescap has manufacturing centers in the United States and India and utilizes a global product development network with research and development centers in the United States, China, India and Switzerland.
