

Klarius Introduces New Parts for the Nissan Qashqai

27 November 2024

Klarius Products is deepening its commitment to the aftermarket emissions control industry with the introduction of 13 brand new components this month. Among the latest additions are parts for one of the UK's favourite family crossovers: the Nissan Qashqai, supporting models from 2016-2018.

[See the full parts list here](#)

Since its launch in 2007, the award-winning Qashqai has redefined the crossover SUV market with its blend of stylish design, practicality, and advanced features. Since then it has remained one of the most popular vehicles in its category, seeing several redesigns that have iterated on its basic design to introduce plenty of new features and options.

Klarius' new components ensure that owners of the Nissan Qashqai can maintain peak performance and emissions compliance. Every part is designed to meet or exceed original equipment standards, offering drivers peace of mind and long-term reliability.

Fast Facts About the Nissan Qashqai:

- **What's in a Name:** Nissan named the vehicle after the Qashqai people, who live in the mountainous areas of Central and Southwestern Iran

- **Built in Britain:** The Nissan Qashqai has been manufactured at Nissan's Sunderland plant in the UK since its debut, supporting thousands of jobs and producing over 3 million units to date.
- **Record breaker:** In September 2015, the Qashqai became the fastest car to have 500,000 units manufactured in the UK.

With over 11,000 parts in its catalogue and next-day delivery available for orders placed before 5:30 PM, Klarius continues to be the trusted source for high-quality emissions control components. This means Nissan Qashqai owners across the UK can rely on Klarius to keep their vehicles running smoothly and efficiently.
