

## **Klarius Expands Coverage with New Parts for Mini Cooper and More**

**26 March 2025**

**Klarius Products has introduced 19 new aftermarket emissions control components this month, providing coverage for over 577,000 vehicles in the UK and 2.4 million across Europe. This latest release reinforces Klarius' commitment to ensuring drivers have access to high-quality replacement parts for a wide range of vehicles.**

This update includes parts for brand like Daihatsu, Fiat, Ford, Honda, Hyundai, Kia, Mercedes, Renault, Skoda, Seat, Vauxhall, and Volkswagen. One of the key additions is new exhaust systems for the Mini Cooper and Mini One 1.6 (2001), which covers almost 150,000 vehicles in the UK and 330,000 across the EU.

You can see the full parts list [here](#).

This might just be Klarius' British roots talking, but the rebirth of the Mini in 2001 was one of the most exciting moments in modern automotive history. Designed under BMW ownership, the first-generation Mini Cooper and Mini One blended classic styling with modern engineering, reviving the spirit of the British iconic.

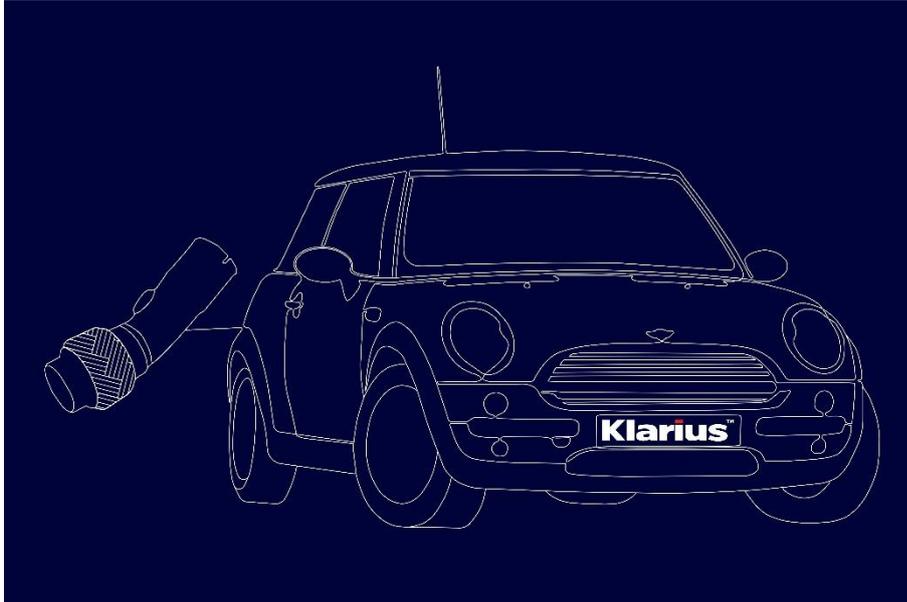

With its responsive handling, compact design, and retro appeal, the 2001 Mini quickly became a favourite among drivers looking for a fun but practical car. Klarius' new exhaust components ensure that owners can maintain their Minis with high-quality replacements that meet or exceed original equipment standards.

### Fast Facts About the Mini Cooper (2001):

- **A Canny Exhaust:** The 2001 Mini's distinctive exhaust tip was inspired by an empty beer can! Chief designer Frank Stephenson used one as a last-minute fix on the clay model, and the board loved it so much that it made it to production.
- **Big-Name Badge:** The Mini Cooper badge comes from legendary race car designer John Cooper, who helped turn the original 1960s Mini into a championship-winning rally car. The 2001 version carried on this racing-inspired legacy.
- **An Oxford Education:** While the German BMW developed the 2001 Mini, production took place in Oxford, keeping the car's British heritage alive.

With over **11,000 parts in its catalogue** and **next-day delivery available for orders placed before 5:30 PM**, Klarius remains the trusted choice for high-quality emissions control components. Whether for the Mini Cooper, Mini One, or other popular models, Klarius ensures that drivers across the UK and Europe have access to reliable, high-performance parts designed to keep their vehicles running smoothly.
