

Klarius Expands Product Range with New Parts for Citroën DS3 and More

30 May 2025

Klarius has released 25 new aftermarket emissions control components this month, delivering coverage for over 1.4 million vehicles in the UK and over 3.8 million across Europe. This latest update continues Klarius' commitment to supporting a broad mix of modern and older models with high-quality, emissions-compliant replacement parts.

This month's range includes components for Audi, BMW, Citroën, Ford, Hyundai, Kia, Land Rover, Mini, Nissan, Peugeot, Renault, Seat, Skoda, Toyota, Vauxhall and more. Among the key additions are new emissions control components for the Citroën DS3 1.6 Blue HDi (2014–2019), covering 21,070 across the UK and Europe.

When it was released, the Citroën DS3 brought a thoroughly welcome dose of style and flair to the compact hatchback segment. Designed to stand out in a crowd and available in a mind-boggling array of colour combinations, the DS3 offered owners sleek lines, stylish looks, and a nippy driving experience.

Klarius' latest components for this model ensures that drivers can keep their DS3s running cleanly and efficiently, with all parts designed to meet or exceed original equipment standards.

Fast Facts About the Citroën DS3:

- **No Badge Needed:** From 2016 onwards, Citroën ditched the badge and spun off DS into a standalone premium brand.
- **Award-Winning:** In 2010, the DS3 was named Top Gear Magazine's Car of the Year.
- **A Divine Name:** One reason Citroën chose the name "DS" is because, in French, it's pronounced "déesse" – which means "goddess."

With over 11,000 parts in its catalogue and next-day delivery available for orders placed before 5:30 PM, Klarius remains the trusted name in emissions control components. Whether it's a stylish hatch like the DS3 or a commercial workhorse, Klarius continues to keep your vehicles running clean and compliant.
