

Cerafiltec Strengthens Strategic Partnership Through Expanded Technical Collaboration with SI Membranes

13 May 2026

Cerafiltec announces the successful reactivation and strengthening of its strategic partnership with Korea-based SI Membranes, Inc., marking an important milestone in the company's continued growth and expansion across the Asian market.

As part of the renewed collaboration, SI Membranes, Inc. has invested in Cerafiltec's test and piloting equipment, demonstrating strong confidence in Cerafiltec's advanced ceramic membrane technology and reaffirming its long-term commitment to joint business development. This enhanced cooperation establishes a stronger and more structured foundation for both companies to accelerate market growth and business opportunities in Korea.

A key milestone of the partnership will be the joint participation at the upcoming EnvEx Korea exhibition from **20–22 May**, where both companies will showcase Cerafiltec's advanced ceramic membrane solutions while strengthening engagement with customers, partners, and key industry stakeholders throughout the region.

"This renewed collaboration reflects the growing confidence in our technology and expertise," said Torsten Wintergerste, CEO of Cerafiltec. "By combining SI Membranes' strong local market presence and technical capabilities with Cerafiltec's advanced membrane technology, we are building a sustainable platform for future expansion, innovation, and customer success in Korea and beyond."

“We are excited to strengthen our collaboration with Cerafiltec and further expand the application of advanced ceramic membrane technology in the Korean market,” said Mr Young Kim, Technical Sales Director of SI Membranes, Inc. “Cerafiltec’s innovative membrane solutions, combined with our local technical expertise and market experience, create a strong foundation for delivering reliable and sustainable treatment solutions to customers. We see significant long-term potential in this partnership and look forward to growing together.”

The continued partnership highlights Cerafiltec’s commitment to building durable international relationships that drive technological advancement, support customer success, and expand sustainable water treatment solutions across global markets.

About SI Membrane, Inc.

Founded in 2006, SI Membranes, Inc. specializes in membrane applications, providing technical support, system design, and membrane solutions to OEMs and EPCs while serving as a trusted technical partner to system suppliers and government-recognized R&D initiatives. The company collaborates closely with leading system builders, including KSYS, G&G, and Hyesung Tech, offering membrane components, pilot and containerized systems, fiber processing, and specialized membrane testing solutions.

About Cerafiltec

Cerafiltec is a global leader in ceramic ultrafiltration membrane technology, redefining how the world handles water and wastewater. Headquartered in Germany, we are at forefront of the transformation of water and wastewater treatment through ceramic membranes, which we build to last, resistant to the harshest conditions, and designed for true sustainability.

We combine advanced engineering with sustainable innovation to deliver reliable, high-performance filtration solutions that ensure cleaner water, higher plant capacity, and lower operational costs.

Driven by our vision of a water-secure planet, we are shaping the future of treatment systems - one drop at a time.
